**Want** to make products that help people to accomplish tasks or to have fun. Interested in building teams to work on great products and raise great employees. Interested in new technologies and those who use them.

## Work Experience

2/2012 - present

Lemgo, Germany

### Founder, Product Manager

Little Rock Online

#### Accomplishments

Finished the development of three different products like a sport stock exchange and a career network with a single developer within three years.

Gathered professional developers, some working on their PhD, to work on a new platform with node.JS, react.JS, MongoDB and others. Will be a new, smart recruiting tool to help recruiters and applicants.

Previously worked on a news platform and got up to 3000 unique visitors in May 2013 without a cent spent on marketing.
